

Department of Psychology, Clinical Program Disclosure Data

Updated September, 2007

This document summarizes the educational and training outcomes for the Clinical Psychology program since 2000. The Department of Psychology provides this information in compliance with the Guidelines and Standards of the American Psychological Association's Committee on Accreditation¹ and in support of Resolutions of the Council of University Directors of Clinical Psychology.² For more information, please contact Thad R. Leffingwell, Ph.D., Director of Clinical Training, at thad.leffingwell@okstate.edu or (405)744-7494.

Applicants

The following table summarizes the number of applicants, accepted students, and admitted students each year since 2000. The number accepted for admission is typically greater than the number admitted because some students offered admission decline. Since 2000, we have averaged 93.4 applicants, 11 offers of admission, and 6.8 students admitted to the program. Class size each year is determined by a number of factors including faculty and resource availability. All students have received financial assistance including assistantships and tuition waivers.

The following table summarizes the academic qualifications for students admitted to the Clinical Program. The average GRE Verbal + Quantitative score of students admitted to the program has been 1133.5 and the average undergraduate GPA has been 3.60. Keep in mind that typically students admitted to our program also have research experience as an undergraduate, or have some graduate school experience.

Financial Information

The following table summarizes the per semester costs associated with the training program for the 2007 incoming class. The table assumes an enrollment in a minimum of 13 hours per semester, which is typical during the first two years of our training program. Costs and financial support change each year, but this data provides an estimate of the costs associated with our program. For information on anticipated tuition and fee rates for the 2008-09 school year, visit <http://bursar.okstate.edu/tuition.html>.

*All tuition is based on per- campus hour enrollments.

**Campus fees are \$79.04 per credit hour for enrollments.

***Three of these fellowships are typically available each year.

Time to Degree Completion and Attrition Rates

The following two tables summarize the average time to complete the degree for all graduates the last seven years and attrition rates for students admitted to the program since 2000. Time to completion includes a one-year clinical internship. Our program is designed to be completed in five years. Some students choose to extend their time in the program to gain additional experiences consistent with their career goals and training needs. Our 41 graduates since 2000 have taken an average of 5.97 years to complete the program. We expect all students admitted to the program to progress to graduation. As can be seen in Table 6, our overall attrition rate is 9.4% since 2000. Keep in mind that students may leave the program prior to earning the degree for many reasons.
