Psyc majors represent the largest group of students within the College of Arts and Sciences. With approximately 600 plus majors we can make a difference. Psychology Club is dedicated to helping OSU students learn about the field of psychology. We offer activities such as community service, workshops about career opportunities, admission to graduate programs, and presentations from professionals in various specialty areas in psychology, social event, and much more. Psychology Club also facilitates interaction between students and psychology faculty. All OSU students are welcome to join regardless of major.
